

Buffalo Cue Wax Material Safety data sheet

Section 1: FIRE AND EXPLOSION DATA

| | |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| The production is | May be combustible at high temperature. |
| Auto-ignition Temperature: | N/A |
| Flash Points: | N/A |
| Flammable Limits: | N/A |
| Products of Combustion: | N/A |
| Fire Hazards in Presence of Various Substances: | No specific information is available in our database regarding the flammability of this product in presence of Various materials. |

| | | |
|--------------------------------------|-------------|--------------------------------------------------|
| Fire Fighting Media and Instructions | SMALL FIRE: | Use DRY chemicals, CO2, water spray or foam. |
| | LARGE FIRE | Use water spray, fog foam. DO NOT use water jet. |

Section 2 : ACCIDENTAL RELEASE MEASURES

| | |
|--------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Small spill: | Absorb with an inert material and put the spilled material in an appropriate waste disposal. |
| Large Spill: | Absorb with an inert material and put the spilled material in an appropriate waste disposal. Prevent entry into sewers, basements or confined areas, dike if needed. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements. |

Section 3 : HANDING AND STORAGE

| | |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions: | Keep away from heat. Keep away from sources of ignition. Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material. Do not breathe gas, fumes, vapour or spray. If you feel unwell, seek medical attention and show the label when possible. Avoid contact with skin and eyes. Keep away from incompatibles such as oxidizing agents. |
| Storage: | Keep container dry. Keep in a cool dry place. Ground all equipment containing material. Keep container tightly closed. Keep in a cool well-ventilated area. Combustible materials should be stored away from extreme heat and away from strong oxidizing agents. |

Section 4 : EXPOSURE CONTROLS/ PERSONAL PROTECTION

| | |
|-----------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Engineering Controls: | Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapours below their respective threshold limit value. Ensure that eyewash stations and safety showers are proximal to the work-station location. |
| Personal Protection: | Splash goggles. Lab coat. Gloves.] |
| Personal Protection in case of a Large Spill: | Splash goggles. Full suit. Boots. Gloves. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product. |
| Exposure Limits: | N/A |

Section 5 : FIRST AID MEASURES

| | |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye Contact: | Check for and remove any contact lenses. In case of contact, immediately flush eyes with water for at least 30 minutes, lifting the upper and lower eyelids occasionally. Seek medical attention. |
| Skin Contact: | After contact with skin, wash immediately with plenty of water. Gently and thoroughly wash the contaminated skin with running water and non-abrasive soap. Be particularly careful to clean folds, crevices, creases and groin. Cover the irritated skin with an emollient. If irritation persists, seek medical attention. Wash contaminated clothing before reusing. |
| Hazardous Skin Contact: | Wash with a disinfectant soap and cover the contaminated skin with an anti-bacterial cream. Seek medical attention. |
| Inhalation: | Allow the victim to rest in a well-ventilated area. If irritation persists seek immediate medical attention. |
| Hazardous Inhalation: | No additional information. |
| Ingestion: | DO NOT induce vomiting. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible indication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a collar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. |
| Hazardous Ingestion: | No additional information. |
